"The approach is progressive, based on the respect of the person within the framework of the code of ethics of the Skills Assessment in France."

WHO IS THIS FOR ?

For anyone who wishes to make an overall assessment of their career, grow, reorient themselves, discover different fields of activity and possible professions, change activity, create their own business, etc....

FOR THE PURPOSE OF ?

To realise one's career path and potential as well as exploring new possibilities in order to define a realistic project :

- to refresh or recreate a current career or prepare to transition to a new one
- to evolve within a current position
- clarify a training project
- elaborate or verify a professional project (reconversion, creation or resumption of a company, auto entrepreneur ...)

HOW ?

Our consultants are certified professionals in skills assessment. They are specialists in career guidance and will accompany you during exclusively individual interviews with adapted diagnostic tools (tests, coaching protocols) and change support (interviews, field investigations, professional meetings, trainings, etc.).

HOW THE SKILLS ASSESSMENT IS CARRIED OUT

PHASE 1

Diagnostic phase of the request

- Analysis of your expectations, short and medium term objectives, reconstruction of your professional career.
- Setting and validation of your assessment's objectives.

PHASE 2

Individual investigation

- Analysis of your skills, abilities, motivations and interests (Transference skills).
- Identification of your personality traits, your personal and professional development axes

PHASE 3

Conclusions of the Skills Assessment

During this interview, we present you with the written summary document of your Skills Assessment. This document is confidential and only given to the beneficiary of the Skills Assessment.

PHASE 4

FOLLOW - UP AT 6 MONTHS

The consultant proposes a meeting after 6 months in order to follow up your Skills Assessment.

OUR TOOLS

- Personality tests: Profil Pro 2, Vocation, Entrepreneur, CTPH-R, etc...
- Transference®: analysis grid between 74 skills and more than 1200 professions.
- Pass'Avenir®: the reference software for orientation, integration and assessment
- Work on your values, professional identity, environment, help in defining concrete and achievable goals.
- Opening up the field of possibilities and professions in line with your interests, aptitudes and transferable skills.
- Addressing the socio - professional environment (information on jobs, functions, sectors of activity, companies, the job market, search for trainings, professional meetings).
- Help in setting up concrete actions in order to validate your professional project.
